This course will concentrate on natural gas and petroleum pipelines, cover the history of pipelines, review pertinent definitions and terminology, and explain how pipelines are designed and how they operate. This course is intended primarily for those individuals that may have a limited knowledge or experience with pipelines. It will provide a better understanding of how pipelines are constructed, how they are operated and maintained, and the applicable safety and regulatory requirements. This course is especially beneficial for anyone involved in land development, marketing, engineering, or insurance. It's also of value for various local government agencies to help with zoning and location issues.

This course will provide you with a better understanding of pipelines, a good working knowledge of the language used in the pipeline industry, and an understanding of where to go to obtain assistance from the various government agencies that conduct pipeline safety oversight.

LEARNING OUTCOMES

- Compare the major differences in the types of pipelines
- Verbalize the vernacular related to pipeline terms of design, construction, and operation
- Summarize how pipelines work
- Describe the route selection process
- Articulate the right of way acquisition process
- Recognize the types of pipeline equipment
- Explain the types of pipeline facilities
- Review the requirements for proper maintenance activities
- Discuss safety practices that need to be put in place
- Describe SCADA
- Demonstrate familiarity with the major codes and standards as well as pipeline regulatory agencies

ONLINE DELIVERY & PARTICIPATION DETAILS

EUCI will use Microsoft Teams to facilitate participation in the upcoming event. Attendees do not need to have an existing Teams account to participate in the broadcast. The course will play in attendee's browser. When attendees sign on, their microphones are typically muted. Attendees should keep their mic muted until such time as it's needed to ask a question. During the event, participants will have the option of using a microphone to speak with the room and ask questions, or type in any questions via the chat window and our online administrator will relay your question to the instructor.

- Each attendee will receive an event invitation by e-mail, which will include one link to sign on for each half-day of the event (i.e., three links for a 1 1/2 day event). The appropriate link must be used to join each half-day event segment at the appropriate time.
- The remote meeting connection will open approximately 30 minutes before the start of the course. We encourage attendees to connect as early as possible in case of unforeseen problems.
