INTRODUCTION TO THE NATURAL GAS INDUSTRY, INFRASTRUCTURE AND REGULATIONS

August 12, 2019
Pittsburgh Marriott City Center
Pittsburgh, PA

RELATED EVENT:
NATURAL GAS PHYSICAL & FINANCIAL MARKETS
August 13, 2019 | Pittsburgh, PA

“This course was very comprehensive and provides excellent value to people of all experience levels.”

Senior Natural Gas Trader, TVA

EUCI is authorized by IACET to offer 0.7 CEUs for this course.
OVERVIEW

This course will present an overview of the natural gas industry and related natural gas liquids (NGLs) and shale oil infrastructure so that attendees gain a comprehensive understanding of the gas industry and markets. Attendees will discuss natural gas terminology, measurements and conversions. They will review the basics of natural gas production, gathering, operations and markets. It will provide an in-depth understanding of natural gas processing plants, pipelines, storage, LNG peak shaving plants, LNG Import and Export terminals and local distribution companies (LDCs). The course will address important components of natural gas transportation, including regional costs of firm and interruptible pipeline transportation, nominations, balancing, and section 4 and 5 ratemaking proceedings on natural gas pipeline transportation.

The intent is that participants will be able to apply the information learned the first day they return to their jobs. Hands-on activities will be included throughout the day.

LEARNING OUTCOMES

• Explain the natural gas value chain: upstream, midstream and downstream
• Discuss natural gas terminology, measurements and conversions
• Review the basics of natural gas production
• Describe the types of shale plays
• Discuss natural gas gathering, operations and markets
• Address natural gas processing plants
• Review elements of natural gas producer economics
• Explain fungibility and gas interchangeability in U.S., Asia and Europe
• Describe natural gas pipelines, including their parts, how they operate, and their role in a changing market
• Evaluate natural gas storage types, operations and storage issues
• Discuss an overview of liquefied natural gas (LNG)
• Address peak shaving plants
• Review Local Distribution Companies (LDCs)
• State the process of natural gas infrastructure siting
• Discuss that natural gas plays in integrating wind and solar energy into the electric grid and Clean Power Plan
• Describe how FERC policy, major orders and regulations have evolved into today’s “Open Access” environment
• Relate an overview of regulated rate components and rate design and new rate policies on the horizon
• Address important components of transportation, including: Pooling, nominations, confirmations, scheduling, receipt, and balancing
• Explain PDAs, OBAs, OFOs, allocations, and curtailments

“Worthwhile, enough in-depth information to fill the day without being overwhelming.”
Product Manager, Extrel CMS

“Excellent course for those in your organization that are newer employees of need to become familiar with natural gas basics from wellhead to burner tip.”
Director of Operations, WPPI Energy
AGENDA

MONDAY, AUGUST 12, 2019

8:00 – 8:30 am  Registration and Continental Breakfast

8:30 am – 4:30 pm  Course Timing

12:00 – 1:00 pm  Group Luncheon

The Natural Gas Value Chain
• Upstream
• Midstream
• Downstream
• How the natural gas industry operates across the value chain

Natural Gas Basics
• Terminology
• Measurements
• Conversions

Basics of Natural Gas Production
• Conventional
• Horizontal drilling
• Hydraulic fracturing

Kinds of Shale Plays
• Dry
• Wet
• Oil
• Locations

Industry Basics
• Gas gathering
• Operations
• Markets
• Regulatory considerations

Producer Economics
• Natural gas processing plants
• Pipeline quality
• Economic importance of NGLs

Fungibility and Gas Interchangeability in U.S., Asia and Europe

Natural Gas Pipelines
• Key parts
• How pipelines operate
• Who are the pipeline players?
• Role of shippers and purchasers

FERC Review of 1999 Pipeline Policy Statement

“Excellent introduction to natural gas infrastructure and pipelines.”
Analyst, USAID
AGENDA

MONDAY, AUGUST 12, 2019 (CONTINUED)

Natural Gas Storage
- Different types
- Operations
- Storage development
- Regulatory issues

Liquefied Natural Gas (LNG)
- Basics
- Import/export terminals
- Vessels

Peak Shaving Plants
- Who uses them
- Locations
- Why they are important

Local Distribution Companies (LDCs)
- Physical plant-related operations
- How they work
- Economic trends
- Rates
- Regulatory trends

Natural Gas Infrastructure Siting: Who Regulates What

Greening of Power Sector
- Role that natural gas plays in integrating wind and solar energy into the electric grid and Clean Power Plan

Natural Gas Regulations
- Who regulates what, where, how, and why
- How FERC policy, major Orders and regulations have evolved into today’s “Open Access” environment
- How natural gas delivery and storage is regulated across the value chain
- Significant FERC regulatory initiatives, policies and Orders that have transformed the industry
- Hot policy, regulatory, environmental, and safety issues that may impact how the industry operates
- Overview of regulated rate components and rate design and new rate policies on the horizon
- The fundamentals of Certificate and Rate Proceedings and how to understand capacity matters and pipeline tariffs, transportation services, agreements, and rates using FERC’s etariff and FERC forms

Gas Transportation through the Value Chain
- Overview of gas transportation
- Nominations
- Scheduling
- Receipt
- Balancing
- Operational Balancing Agreement (OBA)
- Operational Flow Order (OFO)
- Penalties
- Interruptions
- Curtailments

“Good course to learn basics of natural gas industry.”
Energy Market Consultant, Energy Exemplar
INSTRUCTOR

Tom Russo
Principal, Russo on Energy LLC

Tom Russo is an Energy and Environmental expert with unique FERC regulatory skills in siting hydropower, natural gas and liquefied natural gas infrastructure, NEPA environmental impact assessment and in how energy markets, prices and physical/cybersecurity affect infrastructure investments.

He is very active in hydropower and natural gas matters and writes an Energy and Environmental column for the Natural Gas and Electricity Journal. He also co-authored for the R Street Institute entitled “Ebbing the flow of hydropower red tape.”

Mr. Russo is a native of Brooklyn, New York. He earned a credential as a Certified Information Systems Security Professional (CISSP) in 2010. He also graduated with a MBA in Finance from the George Washington University and a MS in Biology from the University of Alabama.
REQUIREMENTS FOR SUCCESSFUL COMPLETION OF PROGRAM

Participants must sign in/out each day and be in attendance for the entirety of the course to be eligible for continuing education credit.

INSTRUCTIONAL METHODS

Case studies, PowerPoint presentations, classroom exercises will be used in this course.

EVENT LOCATION

The event is located at the Doubletree by Pittsburgh Marriott City Center, 112 Washington Place, Pittsburgh, PA 15219. A room block has been reserved for the nights of August 11-12, 2019. Room rates are US $139. Call 1-412-918-1308 for reservations. Mention the EUCI event to get the group rate. The cutoff date to receive the group rate is July 22, 2019, but as there are a limited number of rooms available at this rate, the room block may close sooner. Please make your reservations early.

IACET CREDITS

EUCI has been accredited as an Authorized Provider by the International Association for Continuing Education and Training (IACET). In obtaining this accreditation, EUCI has demonstrated that it complies with the ANSI/IACET Standard which is recognized internationally as a standard of good practice. As a result of their Authorized Provider status, EUCI is authorized to offer IACET CEUs for its programs that qualify under the ANSI/IACET Standard.

EUCI is authorized by IACET to offer 0.7 CEUs for the course.

PLEASE SELECT

☐ BOTH INTRODUCTION TO THE NATURAL GAS INDUSTRY, INFRASTRUCTURE AND REGULATIONS AND NATURAL GAS PHYSICAL & FINANCIAL MARKETS COURSES
AUGUST 12-13, 2019: US $1895
Early bird on or before July 26, 2019: US $1695

☐ INTRODUCTION TO THE NATURAL GAS INDUSTRY, INFRASTRUCTURE AND REGULATIONS COURSE ONLY
AUGUST 12, 2019: US $995
Early bird on or before July 26, 2019: US $895

EVENT LOCATION

The event is located at the Doubletree by Pittsburgh Marriott City Center, 112 Washington Place, Pittsburgh, PA 15219. A room block has been reserved for the nights of August 11-12, 2019. Substitutions & Cancellations
Your registration may be transferred to a member of your organization up to 24 hours in advance of the event. Cancellations must be received on or before July 12, 2019 in order to be refunded and will be subject to a US $195.00 processing fee per registrant. No refunds will be made after this date. Cancellations received after this date will create a credit of the tuition (less processing fee) good toward any other EUCI event. This credit will be good for six months from the cancellation date. In the event of non-attendance, all registration fees will be forfeited. In case of course cancellation, EUCI’s liability is limited to refund of the event registration fee only. For more information regarding administrative policies, such as complaints and refunds, please contact our offices at 303-770-8800. EUCI reserves the right to alter this program without prior notice.

ENERGIZE WEEKLY

Energize Weekly is EUCI’s free weekly newsletter, delivered to your inbox every Wednesday. We provide you with the latest industry news as well as in-depth analysis from our own team of experts. Subscribers also receive free downloadable presentations from our past events.
