MIDSTREAM OIL & GAS CONTRACTS

October 14-15, 2019
EUCI Conference Center
Denver, CO

“An excellent forum to hear from those directly involved in current issues.”

Partner,
Northeast Midstream
OVERVIEW

Midstream companies do business through contracts - yet so often the details are only understood by the core team who creates them. Whether the contract is for the purchase and sale or processing of oil and gas, for the engineering, procurement, and construction of pipelines and other facilities, or, for master purchase or service agreements, there are many critical areas attorneys and commercial managers must focus upon while negotiating and creating a clear, workable and effective contract for the company. The company's rights, therefore, are largely determined by the fundamental skills and knowledge of its counsel and contract managers.

At EUCI's Midstream Oil & Gas Contracts, key takeaways will include:

- General contract terms
- FERC jurisdictional issues
- Construction contracts
- Other project development agreements
- Gathering agreements
- Pipeline ROW
- Environment, health and safety issues

Participants will identify key considerations associated with putting a new contract in place, the questions their team will want to have answered, and how to negotiate more effective contracts with suppliers, customers, partners, and other counter-parties.

LEARNING OUTCOMES

- Review general contract terms, including boilerplate, indemnities, and limitations on liability
- Describe FERC jurisdictional issues
- Discuss construction contracts, including engineering, procurement, construction, and construction management agreements
- Explain other project development agreements, including connection agreements and master service agreements
- Review gathering agreements, including crude oil and gas gathering, gas processing, and produced water disposal agreements
- Describe pipeline rights-of-way, including easements, crossing agreements and other third-party agreements
- Address negotiations before and during the condemnation process
- Explain operations and maintenance agreements
- Review environmental, health and safety issues
- Discuss project documentation and avoidance of disputes, including contractual requirements, documentation, and raising critical issues

“The EUCI program was helpful with obtaining a broader understanding of contracts from a lawyers perspective.”

Commodities Analyst, Energy Financial and Physical, LP

“Very informative. Good review for anyone dealing in contracts for your company.”

Petroleum Landman, Murex Petroleum

“Great course for a basic understanding of oil and gas contracts! I recommend it to anyone that is new to the industry.”

Past Attendee
AGENDA

MONDAY, OCTOBER 14, 2019

8:00 – 8:30 am   Registration and Continental Breakfast

8:30 am – 5:00 pm  Course Timing

12:00 – 1:00 pm  Group Luncheon

• Timely Raising Critical Issues

Q&A and Conclusion
INSTRUCTORS

Robert Ayers  
Of Counsel, Holland and Hart

Robert Ayers represents clients in a wide range of environmental and workplace safety matters, including emergency response, internal investigations, compliance counseling, regulatory enforcement, and civil litigation.

Leslie Boyle  
Partner, Holland and Hart

Leslie Boyle advises clients in connection with their commercial transactions and the development and operation of oil and gas midstream facilities, power plants, and other large infrastructure projects. Leslie negotiates the contracts required for every stage of a project's life cycle, from engineering, procurement, and construction contracts to operations and maintenance agreements and offtake agreements. She also advises clients in the negotiation of joint ventures for the development and operation of infrastructure projects.

Chris Boling  
Associate, Holland and Hart

Chris assists clients on complex domestic and international business transactions and projects. His practice focuses on project development and finance, private equity investments, acquisitions and divestitures, and joint ventures. Chris has represented clients ranging from exploration and production companies to midstream developers, as well as private equity firms, investments banks, and financial investors.

Stephanie Edinger  
Partner, Holland and Hart

Stephanie Edinger provides transactional and strategic advice to companies engaged in the development, purchase, and sale of a broad variety of energy and infrastructure projects, with an emphasis on renewable and thermal generating projects and oil and gas pipelines and midstream facilities. Her extensive experience in the energy industry allows her to assist project sponsors in developing and negotiating their key project development contracts. She also assists her energy clients to structure and implement complex transactions, including asset and membership interest sales, acquisitions, and joint ventures.
INSTRUCTORS

Sean Hanlon
Partner, Holland and Hart
Sean Hanlon consistently achieves positive outcomes for clients, whether through contract drafting and negotiation, settlement, dispositive motion, trial, or appeal. With over a decade of litigation and trial experience, Sean is focused on counseling clients through the whole life cycle of commercial construction projects. Understanding the litigation of construction disputes, Sean and his team of project attorneys anticipate problems and protect clients’ interests in drafting and negotiating construction and design contracts.

Nneka Obiokoye
Associate, Holland and Hart
Nneka focuses her practice on corporate transactional and energy law. Her past experience includes project finance, oil and gas law, electricity and alternative energy generation and distribution, international commercial law, contract drafting and negotiation.

Evan Randall
Partner, Holland and Hart
Evan Randall works closely with clients in the commercial real estate and infrastructure (especially pipeline development) industries. Much of his work involves complex projects that span multiple sites and multiple states. Evan represents companies in connection with oil and gas pipeline developments. He also represents landowners in condemnation and other matters concerning oil and water pipeline, light rail, roads, and other infrastructure projects. He is very active as a speaker and writer on these topics.

Nikolas Stoffel
Associate, Holland and Hart
As an expert in public utility regulation, Nik Stoffel provides his clients with practical, business-minded solutions to a variety of legal issues. Nik’s practice is focused on the federal and state regulation of utilities, pipelines, and electricity markets, and the nuances of administrative law and litigation. Nik’s clients include large energy consumers, industrial and commercial electric customers, local distribution companies, oil and gas pipelines, water utilities, qualifying facilities, renewable energy developers, independent power producers, and telecommunication and cable companies throughout the Mountain West.

Aaron B. Tucker
Associate, Holland and Hart
Aaron provides clients with effective assistance and representation on a variety of environmental compliance and enforcement issues. He counsels clients on assessment and permitting, compliance and enforcement, and rulemaking. His practice focuses on air quality, water quality, contaminated properties, and environmental litigation.
INSTRUCTIONAL METHODS

Case studies and PowerPoint presentations will be used in this program.

REQUIREMENTS FOR SUCCESSFUL COMPLETION

Participants must sign in/out each day and be in attendance for the entirety of the course to be eligible for continuing education credit.

IACET CREDITS

EUCI has been accredited as an Authorized Provider by the International Association for Continuing Education and Training (IACET). In obtaining this accreditation, EUCI has demonstrated that it complies with the ANSI/IACET Standard which is recognized internationally as a standard of good practice. As a result of their Authorized Provider status, EUCI is authorized to offer IACET CEUs for its programs that qualify under the ANSI/IACET Standard.

EUCI is authorized by IACET to offer 1.0 CEUs for the course

CLE CREDITS

Continuing legal education (CLE), also known as mandatory or minimum continuing legal education (MCLE) or, in some jurisdictions outside the United States, as continuing professional development, consists of professional education for attorneys that takes place after their initial admission to the bar.

This event has been approved by the Colorado State Supreme Court Board of Continuing Legal and Judicial Education for 12.0 CLE credits.

REGISTER 3, SEND THE 4TH FREE

Any organization wishing to send multiple attendees to this course may send 1 FREE for every 3 delegates registered. Please note that all registrations must be made at the same time to qualify.

Substitutions & Cancellations
Your registration may be transferred to a member of your organization up to 24 hours in advance of the event. Cancellations must be received on or before September 13, 2019 in order to be refunded and will be subject to a US $195.00 processing fee per registrant. No refunds will be made after this date. Cancellations received after this date will create a credit of the tuition (less processing fee) good toward any other EUCI event. This credit will be good for six months from the cancellation date. In the event of non-attendance, all registration fees will be forfeited. In case of course cancellation, EUCI’s liability is limited to refund of the event registration fee only. For more information regarding administrative policies, such as complaints and refunds, please contact our offices at 303-770-8800. EUCI reserves the right to alter this program without prior notice.
