Based on new challenges in the fossil fuel industry, combined cycle technology is a leading solution in improving efficiency and reducing emissions. Many organizations have considered or are considering the placement and development of new combined cycle plants. This course will explain how these plants operate and what the advantages are of moving into the combined cycle arena. The basics of the chemistry of heat and energy will be discussed in order for participants to understand how plants function. All major components of the plant will be reviewed, including turbines, generators, and emission-control systems. Complete operation and maintenance of the combined cycle system will be highlighted as well. Participants will complete the course with an understanding of how plants function efficiently, from the introduction of fuel into the plant to the generation and transmission of electricity.

“Great overview of how a combined cycle plant works and how they operate in general. Would recommend for any new employees who have little to no experience with power plants.”

Technician, Portland General Electric

**LEARNING OUTCOMES**

Attendees will review and discuss:
- Basic concepts of energy conversion, namely conversion of chemical energy to electricity
- Basic concepts of temperature, work, and heat in power plant operation
- Basic components of a combined cycle power plant and how they work together to produce energy
- Basics of fuel combustion and how fuels are prepared and combusted in a combustion turbine
- Basic components of a heat recovery steam generator and how they work together to produce steam energy
- Basic components of a steam turbine and how the turbine transforms steam energy from the heat recovery steam generator into mechanical energy

**INSTRUCTOR**

Carl R. Bozzuto,
Honorary Member, The Council of Industrial Boiler Owners

---

EUCI is authorized by IACET to offer 1.0 CEUs for the course. Participants must log on each day and be in attendance for the entirety of the course to be eligible for continuing education credit.
BUNDLE PRICE: COMBINED CYCLE POWER PLANT FUNDAMENTALS AND HEAT RECOVERY STEAM GENERATOR FUNDAMENTALS ONLINE COURSES:
OCTOBER 26-28, 2020: US $1,895 (Single Connection)

COMBINED CYCLE POWER PLANT FUNDAMENTALS ONLINE COURSE ONLY:
OCTOBER 26-27, 2020: US $1,195 (Single Connection)

PACK OF 5 CONNECTIONS: US $4,780 (20% Discount)
PACK OF 10 CONNECTIONS: US $8,365 (30% Discount)
PACK OF 20 CONNECTIONS: US $14,340 (40% Discount)

Please call us at 303-770-8800 for additional volume discounts
* all other discounts do not apply to license packs

EUCI will use Microsoft Teams to facilitate participation in the upcoming event. Attendees do not need to have an existing Teams account to participate in the broadcast. The course will play in attendee's browser. When attendees sign on, their microphones are typically muted. Attendees should keep their microphone muted until such time as it's needed to ask a question. During the event, participants will have the option of using a microphone to speak with the room and ask questions, or type in any questions via the chat window and our online administrator will relay your question to the instructor.

- Each attendee will receive an event invitation by e-mail, which will include one link to sign on for each half-day of the event (i.e., three links for a 1 ½ day event). The appropriate link must be used to join each half-day event segment at the appropriate time.
- The remote meeting connection will open approximately 30 minutes before the start of the course. We encourage attendees to connect as early as possible in case of unforeseen problems.

How did you hear about this event? (direct e-mail, colleague, speaker(s), etc.)

Substitutions & Cancellations
Your registration may be transferred to a member of your organization up to 24 hours in advance of the event. Cancellations must be received on or before September 25, 2020 in order to be refunded and will be subject to a US $195.00 processing fee per registrant. No refunds will be made after this date. Cancellations received after this date will create a credit of the tuition (less processing fee) good toward any other EUCI event. This credit will be good for six months from the cancellation date. In the event of non-attendance, all registration fees will be forfeited. In case of course cancellation, EUCI's liability is limited to refund of the event registration fee only. For more information regarding administrative policies, such as complaints and refunds, please contact our offices at 303-770-8800.
EUCI reserves the right to alter this program without prior notice.
